**Subject:** RE: Question? Labeling - Restrictions on Tech labels?

Thanks, Mike. I will see if any other PMs are in the office. I know Venus is out, but I will check with the others.

**Ex. 5 Deliberative Process (DP)** I said I would see if I could find any examples.

Debra

Hi Debra.

Interesting question. No, I cannot think of any tech/mup labels that have expirations, phaseout, or other limitation for some of the uses. The question is a good one but is that not something usually tied to the end-use product registration? There has got to be at least some tech/mups out there with expirations but I cannot recall seeing them.....

This is also a good question for Venus, Heather, and Beth.....

Thanks.

Mike.

Hi Mike,

Off the top of your head, can you think of any technical labels you had/seen that have an expiration for some of the uses? (Any labels where uses are phased out over time, or something like that?) I'm looking for any label language that might be appropriate for our aldicarb technical label when the end-use products are time-limited.

Debra
